

RX 360 VISION

RAXTAR presents the RX 360 Vision, the latest innovation in construction safety. The surveillance camera kit is a smart solution for any construction project. RX 360 Vision provides complete high resolution coverage of the hoist cabin and surrounding area.

Its advanced features and benefits make it an indispensable tool for ensuring safety, security and uptime on your site.

Benefits

Cost Savings: Avoid potential losses and liabilities with a robust security system that protects your assets and personnel.

Operational Efficiency: Reduce downtime and enhance project management with real-time monitoring and alerts.

Increased Security: Deter theft and vandalism with continuous recorded footage.

Enhanced Safety: Improve the overall safety of your construction site by monitoring activity in the hoist.

Damage Tracking: Trace damages caused and charge the responsible party accordingly.

Specifications

- **360-Degree Panoramic View:** Provides complete coverage of the hoist cabin and surrounding area.
- **High-Resolution Imaging:** Equipped with a high-resolution sensor for clear and detailed images, even in low-light conditions.
- **Durable Construction:** Built to withstand the harsh conditions of construction sites, such as impacts, dust and vibrations.
- **Easy Installation:** Designed for quick and simple installation in any location.
- **Compatibility:** Can be fitted into all RAXTAR hoists equipped with RX Control 2.0.
- **Footage Storage:** Footage is stored locally for 14 days and can be accessed locally and online, with the ability to download to your computer.
- **Multi-Hoist Management:** View and manage multiple hoists from the same portal.
- **AI-Integration (optional):** Install AI tools to count and identify people, goods, PPE, etc.
